Nine Dots Development
The Leadership & Management Training Specialists

Train the Virtual Trainer

This programme is designed to take your existing trainers and give them the ability to deliver effective, punchy and innovate training to your remote teams.

Effective, Innovative, Virtual Training

Exceptional people, outstanding results

Why Choose Train the Trainer?

Many employees are now working remotely or are being asked to self-isolate. This, along with a change in some organisations' training budgets, has led to an increase in the utilisation for virtual training.

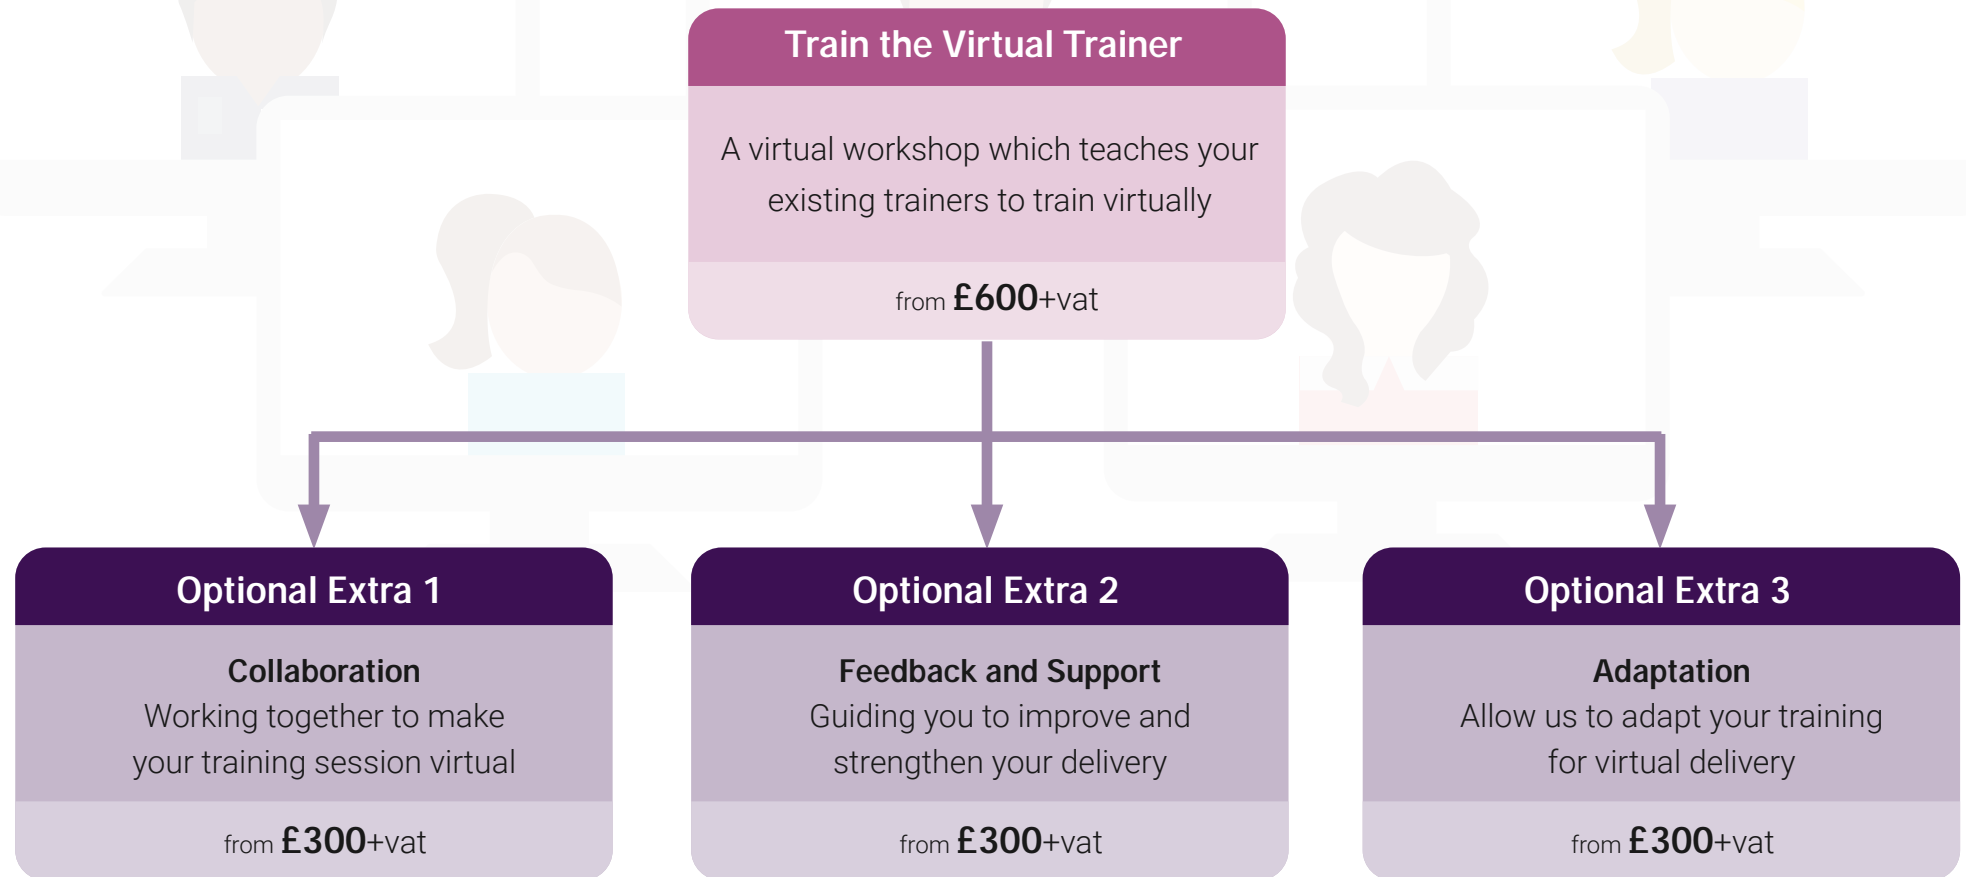

Virtual training is a complementary skill that can be added as another string to your training bow.

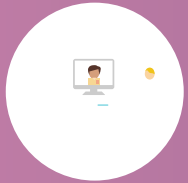

Our expert virtual trainers can help you expand your trainers' skills in a remote setting by providing participants with valuable and relevant skills to allow them to plan, design and deliver effective and innovative virtual training.

How Does it Work?

Train the Virtual Trainer

This 3-hour course is designed to provide your trainers with the design and delivery skills to deliver virtual training.

We explain the technical details of how webinars work, guides on how to plan a session and make sure it is interactive and give the learners the opportunity to practice training techniques.

Topics Covered

- ✔ What webinars are and how they are useful
- ✔ What platforms are available and their benefits and drawbacks
- ✔ How to design simple sessions including template
- ✔ Tools and ways to ensure interaction
- ✔ Delivery techniques
- ✔ Practice session

Benefits

- ✔ Design just in time training for agile environments
- ✔ Save time and money on travel and accommodation
- ✔ Ensure all have access to training

How Can We Help You Deliver Your Training Virtually?

Optional Extra 1

Collaboration

We can collaboratively look at your current/planned training workshops and work together to make them virtual.

This way, you can still run a very similar programme but virtually rather than face-to-face. You would still have ultimate control over content and what topics you explore but this would be a collaborative effort.

Optional Extra 2

Feedback and Support

We can co-deliver your first virtual training session and then support and guide you to improve and strengthen the delivery.

Your trainers can deliver virtual training with our support to make sure the experience is seamless.

Optional Extra 3

Adaptation

We can interpret your current/planned training and adapt this so that it can be delivered virtually.

This way, we will do all of the work needed to adapt your current training plans whilst still ensuring it meets your organisation's individual needs and requirements. This is a great option if you feel like you don't have a lot of time to dedicate to re-designing your training programme yourself.

What our Participants and Clients Say

- 🗨️ **Enlightening, informative, relevant and thought - provoking.**
- 🗨️ Informative and knowledgeable. Well presented and **easy to follow.**
- 🗨️ **Excellent** content, **delivered effectively** and in a way that everyone would understand. Really **going to help going forward.**
- 🗨️ Very **informative.** It has opened my eyes to all possibilities of perception.

"Nine Dots Development is Farm Africa's main L&D partner. They provide an excellent service, working with us to develop and tailor learning programmes that really work for our organisation. Their approach to embedding learning into daily work is really useful, as is the ongoing support they provide to staff outside of the training room. They also offer a range of solutions for delivering learning and training that really worked for us as an international organisation, with staff often based in remote parts of Africa. Our teams love the interactive approach to training and find the additional tools and reading genuinely useful and applicable to their working lives. We would absolutely recommend Nine Dots

- 🗨️ For both my personal development and my team's development - today was **incredibly important.** We shared honest and open examples and we became more self-aware throughout the session. **Great course and very valuable on all levels.**

- 🗨️ **Informative** session that equipped me with knowledge of skills I could improve and **utilise in practice.**
- 🗨️ It was very informative and I **look forward to using it in the workplace.**

Development to any organisation that is looking for practical, relevant training that their teams can relate to, and draw on in their daily work."

Jane Doughty

Head of Human Resources

Farm Africa

Nine Dots Development

We help assist organisations to expand the skill sets of their employees, from junior managers, all the way through to executive level positions.

We do this through:

- Bespoke/tailored training workshops
- 1 to 1 coaching
- Qualifications
(CMI/ILM/Apprenticeships)

Our work tends to cover **3 broad areas** of skills and behaviours which can be categorised as:

- People Management
- Business Management
- Self Management
